ALL THAT GLITTERS

Sunday, April 29th, 1:30-4:30

With Andrea Warren, from Golden Artist Colors

Explore the shimmering world of GOLDEN's Iridescent and Interference colours in this introductory workshop! Try out a full range of metallics, from the classic coppers and golds to unique colours such as the dark and gritty Micaceous Iron Oxide, the Iridescent Stainless Steel and the textured Gold Mica Flakes. Learn how to use the Iridescent colours to create patina effects, and to create your own faux gold leaf. Discover the opalescent Interference colours and how to use them to full effect, working on light and dark surfaces, with other pigments, and mixed with gels for texture, pouring and dripping. Learn what pigments work best for mixing with these colours, and experiment with using them in different formats such as the ink-like High Flow paint line- with pen and nib for calligraphy and through refillable markers and Fineline applicators for markmaking. Discover these gorgeous candy colors for yourself, and go home with a sample set to start you off at home!

Cost: $55, all materials included.

GOLDEN LECTURE DEMO: MIXED MEDIA TECHNIQUES

Sunday, April 29th, 10:00 am -12:00 pm

With Andrea Warren, from Golden Artist Colors

This comprehensive lecture covers a wide variety of techniques and tools that fall into the wide open category of mixed media. Learn all about working with gels and molding pastes, creating washes and stains, acrylic transfers, combining imagery, working with stencils, creating encaustic and resin looks with acrylic, fabric applications, drawing with pencils and pastel on acrylic surfaces, using paint markers, pouring techniques, and more. Whether you are a traditionalist or lean towards abstraction, a beginner painter or an experienced artist, this lecture provides a ton of great technical information and inspiration for innovative creative applications. Bring your questions, try some new products, learn some new techniques and go home with a selection of free GOLDEN samples!

Cost: FREE! Registration required.
