

PASTEL SUPPLY LIST (“chalk” or “soft” pastels):

- A smaller set of better quality pastels is preferable to a larger set of lower quality. A set of half sticks gives you twice the number of colours. A selection of harder and softer pastels is ideal, but not necessary to begin. Other colours and shades can be added as you go. NOTE: *These are not oil pastels*
- Pad of pastel or charcoal paper, including a variety of colours (warm and cool)
- Kneaded eraser, for small corrections
- A rag for cleaning your hands. (Some use latex hand or finger protection)

Optional Extras

- Other drawing 'sticks' such as charcoal and conte (black, earth colours, etc.) can be useful
- Pastel or charcoal pencils
- Soft brush
- Bread, plain white, for larger-scale corrections
- Spray can of workable matte fixative
